The City of Urbana and Cunningham Township are asking for increases of 20.3% and 23.1% respectively in the property tax levy based on the possibility that hospital properties could be considered taxable for the 2018 tax levy.

The City intends to reduce the tax levy so that the current tax rates remain in place. For the owner of a \$150,000 owner-occupied home, that would mean a City property tax bill of \$596, the same as in 2017, assuming the value of the property does not change. If hospital properties are considered taxable and properties that are currently exempt are added to the tax rolls, the City intends to reduce their tax rates to \$1.3152. At this lower rate, the City tax bill for the owner of the same house would be reduced to \$579, again assuming the property value does not change. Urbana homeowners should not see any increase in their property tax bill for City taxes, unless the assessment on their property has increased.

Cunningham Township will limit its tax extension to that which is allowable under tax caps.

Please note that the City share of the total property tax bill is approximately 13% and the Township's share is about 2%.

Danielle Chynoweth, Cunningham Township Supervisor
